Foreword

How to learn JSF, Facelets and JBoss Seam easily?

If you're required to develop an application in JSF but are just learning it (JSF), this can be a daunting task. If you need to learn Facelets and JBoss Seam at the same time, it will quickly become unmanageable. With this book, you will have much better chances of hopping over the hurdles. How?

- It has a tutorial style that walks you through in a step-by-step manner.
- It is concise. There is no lengthy, abstract description.
- Many diagrams are used to show the flow of processing and high level concepts so that you get a whole picture of what's happening.
- Free sample chapters are available on <http://www.agileskills2.org>. You can judge it yourself.

Products covered in the book

This book covers JSF 1.2 (reference implementation), Facelets 1.2, JBoss Seam 2.0, JBoss RichFaces 3.1, JBoss IDE Tools 2.0, Eclipse Europa for Java EE.

Target audience and prerequisites

This book is suitable for those learning how to develop web-based applications with JSF, along with Facelets and JBoss Seam.

In order to understand what's in the book, you need to know Java and HTML. However, you do NOT need to know servlet, JSP or Tomcat.

Acknowledgments

I'd like to thank:

- Helena Lei for proofreading this book.
- Eugenia Chan Peng U for doing book cover and layout design.

Table of Contents

Foreword.....	3
How to learn JSF, Facelets and JBoss Seam easily?.....	3
Products covered in the book.....	3
Target audience and prerequisites.....	3
Acknowledgments.....	3
Chapter 1 Getting Started with JSF.....	7
What's in this chapter?.....	8
Developing a Hello World application with JSF.....	8
Installing Eclipse.....	8
Installing Tomcat.....	9
Installing the JSF reference implementation.....	10
Creating a Hello Word application.....	11
Generating dynamic content.....	24
Retrieving data from Java code.....	31
How the JSP file generates the HTML code.....	38
Debugging a JSF application.....	40
Summary.....	41
Chapter 2 Using Forms.....	43
What's in this chapter?.....	44
Developing a stock quote application.....	44
Getting the stock quote symbol.....	44
Displaying the stock value.....	52
Defining the page navigation.....	54
Using a combo box.....	62
Inputting a date.....	65
Handling conversion errors.....	70
Marking input as required.....	76
Using the calendar component.....	77
Hooking up the managed beans.....	80
Summary.....	83
Chapter 3 Validating Input.....	85
What's in this chapter?.....	86
Postage calculator.....	86
What if the input is invalid?.....	93
Null input and validators.....	97
Validating the patron code.....	99

Displaying the error messages in red.....	102
Displaying the error message along with the field.....	103
Validating a combination of multiple input values.....	108
Summary.....	111
Chapter 4 Creating an e-Shop.....	113
What's in this chapter?.....	114
Creating an e-shop.....	114
Listing the products.....	115
Showing the product details.....	124
Implementing a shopping cart.....	130
How Tomcat and the browser maintain the session.....	139
The checkout function.....	142
Implementing the login function.....	144
Implementing the checkout function.....	151
Implementing logout.....	158
Summary.....	160
Chapter 5 Building Interactive Pages with AJAX.....	163
What's in this chapter?.....	164
A sample AJAX application.....	164
Refreshing the question only.....	166
Refreshing the answer itself.....	169
Giving rating to a question.....	169
Using a modal panel to get the rating.....	172
Setting the look and feel with skins.....	176
Summary.....	177
Chapter 6 Using Facelets.....	179
What's in this chapter?.....	180
Setting up IDE support for Facelets.....	180
Creating a Facelets project.....	181
Creating your own tag.....	188
Hiding JSF tags into HTML tags.....	191
Forbidding direct access to xhtml files.....	193
Summary.....	195
Chapter 7 Providing a Common Layout with Facelets.....	197
What's in this chapter?.....	198
Providing a common layout.....	198
Having two abstract parts.....	202
Having page specific navigation cases.....	204
Summary.....	206

Chapter 8 Using JBoss Seam.....	207
What's in this chapter?.....	208
Recreating the e-shop with Seam.....	208
Creating the catalog page.....	218
Displaying product details.....	223
Adding a product to the shopping cart.....	230
Confirming the checkout.....	237
Logging in.....	239
Protecting the confirm page.....	244
Implementing logout.....	245
Redirect vs render.....	247
Summary.....	249
Chapter 9 Supporting Other Languages.....	251
What's in this chapter.....	252
A sample application.....	252
Supporting Chinese.....	253
Internationalize the date display.....	259
Letting the user change the locale.....	260
Localizing the full stop.....	263
Displaying a logo.....	266
Making the locale change persistent.....	269
Localizing validation messages.....	271
Summary.....	272
References.....	273
Alphabetical Index.....	274
